VISION VICTORY

St. Patrick's Day Poker Run

This run will benefit those fighting PTSD (Post Traumatic Stress Disorder) and TBI (Traumatic Brain Injuries). PTSD and TBI's are the leading Silent Wounds that are the hardest to overcome. As we have learned in history PTSD can take a lifetime to control and TBI's are created by shock waves unlike anything professional sports has ever known. With the high rate of Military suicides happening we know that this is a fight.

So please join us on this day to bring a little bit of LUCK & HAPPINESS to this fight. We need to be there for them now and years to come.
